**Please find below and/or attached an Office communication concerning this application or proceeding.**

**Commissioner for Patents**

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. The communication filed on 10/21/2004 is not fully responsive to the prior Office action because of the following omissions or matters:

The amendment filed on 10/21/2004 canceling all claims drawn to the elected invention and presenting only claims drawn to a non-elected invention is non-responsive (MPEP § 821.03). The remaining claims are not readable on the elected invention because the amendment, first, brings in claims 19-21 which belong to subject matter originally restricted out (Group II of original claim version of 08/2000; election of Group I without traverse was made in communication filed 01/23/03). Further, claims 22-29, and claims 30-32 are directed to inventions which are patentably distinct from the originally elected method. The methods of claims 22-29, and claims 30-32 have different method steps (e.g., steps a-c of claim 22, or preamble and step a) of claim 30) or different objectives (e.g., generating tertiary library in method of claim 22), and will require non co-extensive search compared to the originally elected method of Group I.

Since the above-mentioned amendment appears to be a bona fide attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael Borin whose telephone number is (571) 272-0713. The examiner can normally be reached on 9am-5pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Woodward can be reached on (571) 272-0722. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system.
